PLURALSIGHT

Corporate Fact Sheet

Pluralsight's mission is to democratize technology skills. We are driven by the belief that everyone should have the opportunity to develop the technology skills of tomorrow and create progress through technology. With assessments, learning paths, and courses authored by world-renowned industry experts, our technology learning platform helps businesses and individuals close the technology skills gaps in critical areas, innovate faster, and meet their core objectives. Pluralsight enables technology skills at scale.

PLATFORM

On-demand
Our platform allows technology professionals the freedom to learn at their own pace anytime, anywhere, on any device.

Course library
Our more than 7,000 courses cover the most relevant and in-demand technologies, including cloud, mobile, security, IT, and data.

Expert authors
Pluralsight has built a powerful network of more than 1,500 world-renowned industry experts who are carefully selected for their expertise and leadership in their chosen field.

Pluralsight IQ
Powered by machine learning and advanced algorithms, our skill assessments give technology professionals the ability to quantify their skill level with a Skill IQ and understand how they compare to others in the industry.

Learning paths
Based on either an assessment or an individual's goals, our learning paths are curated to take learners through a set of courses designed to help them master a particular subject area.

Channels
Technology professionals and leaders can curate content and align learning to specific projects and business objectives with channels.

Certification practice exams
Through our platform, learners can take and retake over 100 certification practice exams provided by Kaplan.

Analytics
Technology executives can understand trending subjects, the skill levels of their team, measure progress towards business objectives, and quantify the impact of skill development on their business.

SOCIAL IMPACT

We believe technology has the power to create freedom, equality and opportunity around the globe. Pluralsight One is our commitment to serving a larger purpose by equipping nonprofits with the technology skills they need to drive significant, lasting social impact and in turn equipping those they support with access to high quality learning resources and the technology skills to chart their own futures and strengthen their communities.
